

[UETDRRF06B](#) – Perform Rescue from a Live LV Panel

[UETSS00029](#) - Refresher - Perform Rescue from a Live LV Panel and CPR

Course Cost: \$100.00 per person

Mode of Delivery: Online (Theory) & Face-to-face (Practical)

Pre-requisites: Nil

This Competency Standard Unit covers the performance of rescue procedures from live LV apparatus, not including overhead lines and underground cables in the work place. It specifies the mandatory requirements of rescue from a live LV panel and how they apply in the context of transmission, distribution or rail work functions. It encompasses responsibilities for, health, safety and risk management processes at all operative levels and adherence to safety practices as part of the normal way of doing work.

Award issued: - VALID FOR 12 MONTHS

Students who successfully complete this nationally recognised training will be awarded the statement of attainment:

UETSS00029 - Refresher - Perform Rescue from a Live LV Panel and CPR (Release 3)

- UETDRRF06B – Perform Rescue from a Live LV Panel
- HLTAID001 – Provide Cardiopulmonary Resuscitation

Online Component: The theory component of this course involves completing online pre-work on our e-learning website. The student will be required to read the provided materials and complete an online quiz. This will take approx. 2.5 hours.

Practical Component: Once the theory component has been completed the student will be required to attend a face-to-face session at our training facility to complete the practical assessment. This will take approx. 1.5 hours.

Physical requirement: Learners undertaking CPR training must demonstrate CPR on a manikin on the floor. This requirement must be met in full and it is not appropriate for the manikin to be placed on a table or similar. If you think that you will not be able to demonstrate this competency, please let us know prior to the course.
